## Cornerstone Now Offers CARFAX

CARFAX is the newest addition to the products and services CCF provides for its members. If you are looking for a used auto, CARFAX can help you by checking the history of the vehicle for things such as manufacturer buyback (lemon), odometer rollbacks, major accidents, fire and flood damage, number of owners, changes in type of registration and recalls.

The CARFAX report will also tell you what items are standard equipment on that auto and what safety equipment is included. We can run this check for you when you provide us with the VIN (Vehicle Identification Number).

The discounted rate for this report when purchased through CCF is \$14.99, a great price as compared to carfax.com at \$34.99. Once you finance the car through the credit union, we will refund the full cost of the report. You read that right, once you finance the car through us the report is FREE.

CARFAX's unique database contains more than three billion records and receives information from thousands of public and private sources including all Departments of Motor Vehicles (DMVs) in the United States and Canada, as well as many vehicle inspection stations, auto auctions, fleet management and rental agencies, automobile manufacturers, and fire and police departments.

Consider obtaining a CARFAX Vehicle History Report as a way to protect your next vehicle. If you have any questions or would like further information, please stop in or contact CCF at 800-777-6728. We're always happy to help our members!

## Holiday Closing

**Memorial Day**  
Monday, May 31

# Member Service Reps are Waiting to Take Your Call

Serving Members Around-The-Clock @ 800-777-6728

Waiting until business hours to do your banking is a thing of the past. You can now get your banking done anytime, day or night through our 24/7 Call Center. Around-the-clock credit union access is increasingly important for our members. Now, CCF members can take advantage of live, 24/7 member services.

Our expanded call center hours will provide members with another convenient way to obtain immediate account information, conduct transactions, and even apply for loans or open new accounts. The call center functions like a branch of the credit union, offering services via telephone 24 hours a day, 365 days a year. This can be especially important when assistance is needed or questions arise when visiting our web site or reviewing your accounts online.

CCF's lending capabilities feature instant loan decisions when members apply at our branches, on our web site or by phone. Lending decisions are provided in seconds! By combining 24-hour lending services with access to an around-the-clock call center, we can now provide members with unmatched access and convenience.

## eAlerts: *Keeping you in the know*

With personalized eAlerts, you're always in the know because eAlerts can be sent to your e-mail address or mobile phone. You can choose the eAlert preference and frequency that is right for you.

CCF's personalized eAlerts can remind you when your payment is due, notify you when your balance reaches a set amount and notify you of deposits, withdrawals or even CD maturity dates.

The service is free and can be discontinued at any time. To sign up, log on to NA24, and click on "Other Options."

## Remembering Lou Magnatta

We lost a dear and trusted member of our Board of Directors on April 7, 2010. He was a devoted volunteer for over 45 years. His work and dedication to our credit union will not soon be forgotten. His memory will live on in the work done here at CCF.
